Adverse: The Board believes that there will be no adverse effects that would negatively impact business. The Board also believes that there are no adverse effects anticipated that would negatively impact the general public.

AS REQUIRED BY NRS 233B.0608 AND 223B.0609
(FINDING OF NO ADVERSE IMPACT)
LCB FILE No. Unassigned**

February 12, 2015

This Statement is submitted on behalf of the Board for the Administration of Subsequent Injury Account for the Associations of Self-insured Public or Private Employers (Board). See, NRS 616B.569 for the creation of the Board. See, NRS 616B.575, for the creation of the Subsequent Injury Account. The Board is proposing to amend its regulatory scheme set forth in NAC 616B, regarding the Associations of Self-insured Public or Private Employers.

Note: Small Business is defined as "a business conducted for profit which employs fewer than 150 full-time or part-time employees." (NRS 233B.0382).

1. Describe the manner in which comment was solicited from affected small businesses, a summary of their response and an explanation of the manner in which other interested persons may obtain a copy of the summary.

ANSWER: No comment was solicited from affected small businesses because the Board determined that there will be no adverse impact from the proposed changes to the regulations upon small businesses. Solicitation of comment from small businesses is only mandated if the Board determines that the proposed changes to the regulations would impose a direct and significant economic burden upon a small business or would directly restrict the formation, operation or expansion of a small business. See, NRS 233B.0608(1) and (2).

As explained, below, the proposed changes will streamline, simplify and clarify the process by which claims are administered by the Board. After reasoned and serious consideration where the Board evaluated the purpose and scope of the proposed regulatory changes in conjunction with the existing regulations, the Board reached the conclusion that small businesses as well as all other employers who appear before the Board will benefit from the proposed regulatory changes.

2. The manner in which the analysis was conducted.

ANSWER: As noted in Answer 1, the Board has concluded that the proposed regulatory changes will not have a direct and significant economic burden upon a small business or would directly restrict the formation, operation or expansion of a small business. *See*, NRS 233B.0608(1) and (2). This conclusion was reached because the proposed amendments to the Board's Regulations will, *inter-alia*, add provisions for declaratory relief from the Board and the opportunity for the public to propose the repeal, modification or addition of regulations governing the disposition of matters before the Board, clarify the process by which requests for continuances of hearing are to be processed, clarify the procedure for conducting hearings before the Board, provide for the disposition of annuities and the handling of commutated payments, address the standards for considering written records, address the question of retention in employment in light of recent Nevada Supreme Court decisions and clarify "permanent physical impairment."

To reach the Board's conclusion of no adverse impact, the Board drew upon the experience and expertise of the Board members, themselves. They are risk management persons, with broad and long-term experience in the assessment of workers compensation claims. They are appointed to the Board by the Governor and have had considerable experience, also deciding claims as Board members. The Board considered recent case law when deciding whether to adopt changes to the regulatory scheme, reviewed in great detail the existing regulatory scheme, and also considered how the existing regulatory scheme could be changed to more readily dispose of the cases which have come before the Board. The Board, then, after drafting the proposed regulatory changes, took a step back and assessed the impact of the process for resolving claims, if the proposed regulatory changes were enacted. The result of this analysis was the recognition that the proposed regulatory changes would clarify, simplify and add to the regulatory framework provisions that were lacking but were mandated to be in place. Because all of these revisions inure to the benefit of applicants for reimbursement before the Board, the Board does not anticipate that adopting these regulations will have any adverse, negative economic effect, either immediate or long term on small businesses.

No fees are being added by these draft regulations, though the Board is adding that applicants have the option at their cost, of employing a court reporter to report upon and to secure a transcript of the hearing before the Board. As this is an expense incurred at the applicant's election, it is neither a fee, nor a source of revenue for the Board. It simply gives the applicant one more option for assessing a record of the proceedings before the Board.

Finally, these findings and determinations were reached by consensus of the Board after a public hearing. Upon a motion made by Emilia Hooks, seconded by Joyce Smith, the Board voted to affirm the findings and conclusions set out herein. The motion was adopted by a vote of 5, in favor and 0, against the motion, with a quorum of the Board being present to conduct this Board business, as reflected in the minutes of the meeting of the Board held on February 12, 2015.

3. The estimated economic effect of the proposed regulation on the small businesses which it is to regulate, including, without limitation:

- (A) Both adverse and beneficial effects; and**
- (B) Both direct and indirect effects.**

ANSWER: The Board, as explained, does not anticipate that adopting these regulations will have any adverse, economic effect, either immediate or long term, direct or indirect, on small businesses.

4. Describe the methods that the agency considered to reduce the impact of the proposed regulation on small businesses and a statement regarding whether the agency actually used any of those methods.

ANSWER: Because there will be no adverse impact on small businesses, there are no methods needed to reduce the impact the Board could have considered.

5. The estimated cost to the agency for enforcement of the proposed regulation.

ANSWER: There is no additional cost to the Board for enforcement of these regulations.

6. If the proposed regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.

ANSWER: The proposed regulatory changes do not provide for any new fee or increase any existing fee.

7. If the proposed regulation includes provisions which duplicate or are more stringent than federal, state, or local standards regulating the same activity, an explanation of why such duplicative or more stringent provisions are necessary.

ANSWER: The proposed regulatory changes do not include any provisions which duplicate or are more stringent than existing federal, state or local standards. The proposed regulatory changes amend existing regulations in compliance with existing Nevada law.

8. The reasons for the conclusions of the agency regarding the impact of a regulation on small businesses.

ANSWER: The Board complied with NRS 233B.0608 by considering the purpose and scope of the proposed and potential regulatory changes in conjunction with existing regulations and made a concerted effort to determine whether the proposed regulatory changes would impose a direct or significant economic burden upon small businesses, or directly restrict the formation,

operation, or expansion of a small business. *See also*, the response to Question 2, above. The Board determined that these proposed regulatory changes will have no adverse effect on small businesses.

I, Richard Iannone, Chairman of the Board for the Administration of the Subsequent Injury Account for the Associations of Self-insured Public or Private Employers, certify that, to the best of my knowledge or belief, the information contained in the statement was prepared properly and is accurate.
