

**DEPARTMENT OF BUSINESS AND INDUSTRY
OFFICE OF THE DIRECTOR**

Effective September 4, 2015, the Nevada Department of Business and Industry canceled its Request for Proposal No. B12015001. In its place a Request For Qualifications for the Department of Business and Industry, Southern Nevada Business Center Lease will be issued shortly.

In order to deliver the project on time and within its budget, the Department of Business and Industry feels integrating the State's Public Works Division and its Leasing Services Section into the process at a much earlier timeframe will help the State achieve its goals more efficiently. In doing so, it was decided a Request For Qualifications, rather than a Request For Proposals, will give the State the most flexibility in achieving its goal toward a 1-stop shop combining 12 Agencies and Departments into one convenient location including space for the Department of Education. This process will help keep the State on track to open the Southern Nevada Business Center by Spring of 2017.

When issued, interested parties can contact the State's Public Works Division, Leasing Services Section to request a copy of the Request For Qualifications. Additionally, the document will be available electronically on the Public Works, Purchasing Division and Business and Industry websites upon issuance.
