GRANTS

Government grants are funded by your tax dollars and, therefore, require very stringent compliance and reporting measures to ensure the money is well spent.

Grants from the Federal government are authorized and appropriated through bills passed by Congress and signed by the President. The grant authority varies widely among agencies. Some business grants are available through state and local programs, nonprofit organizations and other groups. These grants are not necessarily free money, and usually require the recipient to match funds or combine the grant with other forms of financing such as a loan. The amount of the grant money available varies with each business and each grantor.

Below are some resources to grant searches and specific grant opportunities:

Small Business and Minority Grants

Here are the top small and minority business grant programs available to start a new business or enhance an existing one. Others can be used for innovation research.

<u>The FedEx Small Business Grant Contest:</u> is a nationwide competition that will award \$50,000 in total to six deserving U.S-based entrepreneurs and business owners.

The top winner will receive a \$25,000 grant and the remaining five winners will receive grants of \$5,000 each. Small businesses, defined as having fewer than 100 employees, will compete for the grants by registering their business online.

Once their application is approved and the voting period begins, they can vote for their own business once a day and get their friends, customers, and colleagues to vote also every day.

The number of votes received will boost their company's visibility in the contest, and will be a major factor that FedEx will consider when selecting the top 100 finalists and the winners. They will review every submission to identify the most compelling business stories.

The National Association for the Self Employed (NASE) Growth Grants Program: allows business owners to apply for a grant useful for financing a particular small business need. Past recipients used their grant for computers, farm equipment, to hire part-time help, marketing materials and more.

The National Association for the Self Employed (NASE) Growth Grants Program allows business owners to apply for a grant useful for financing a particular small business need. Past recipients used their grant for computers, farm equipment, to hire part-time help, marketing materials and more.

The NASE Growth Grants® program offers access to capital for micro-business owners who have a specific business need, but lack the finances to carry out that goal. The program was designed after an online NASE Member poll found that a majority of micro-business owners (57 percent) initially fund their businesses using personal savings, and many (40 percent) continue to use personal savings for ongoing financing.

Through the program, members can apply for up to \$5,000 to meet a specific business need such as the purchase of new equipment or software, or the funding of advertising, marketing materials or training. Since the program began in 2006, the association has awarded more than \$650,000 to member businesses.

The National Association for the Self-Employed (NASE), a non-profit organization, is the nation's leading resource for the self-employed and micro-businesses, bringing a broad range of benefits to help entrepreneurs succeed and to drive the continued growth of this vital segment of the American economy.

<u>The Dare to Dream Grant Program:</u> encourages students to move through the business creation process by offering business development seminars and up to \$10,000 in funding.

The Dare to Dream Grant Program encourages students to move through the business creation process by offering business development seminars and up to \$10,000 in funding.

Within the program, students meet deadlines to produce deliverables that guide them through the business development path from a nascent idea to formulating and assessing potential businesses to planning and launching these

The program has three different stages:

- 1) The Venture Shaping grant is geared toward students with an idea that they believe holds commercial promise.
- 2) The Assessment grant is geared toward students with a proposed business;
- **3)** The Integration grant is for teams that have a complete feasibility study that concludes the proposed business is viable.

Students may enter their business into the program at any stage though, once entered, the business cannot re-apply for the same stage nor a stage before it. Applications are accepted each September and January.

Award Amount:

\$500 - \$10,000

The Minority Business Development Agency (MBDA) organizes various angel investors with the primary objective of supporting minority businesses with mezzanine and second round financing.

The Minority Business Development Agency (MBDA) was originally established as the Office of Minority Business Enterprise by President Richard M. Nixon on March 5, 1969. He recognized the impact of minority businesses on the nation's economy and on the general welfare of the country, and wanted to protect them.

Today, the agency does just that via many grant funding programs that are designed to help keep minority businesses afloat. In 2011, the agency supported the creation of 5,787 new jobs by assisting minority-owned businesses in obtaining nearly \$4 billion in contracts and capital. Even more, MBDA's return on taxpayer investment (ROI) reached the highest level in the 43-year history of the Agency.

That same year, MBDA also successfully launched a newly redesigned MBDA Business Center program that combines the traditional Minority Business Enterprise Center (MBEC) and Minority Business Opportunity Center (MBOC) programs into one program. Via these center, grant funding is distributed every year with applications usually being accepted in the spring or summer.

The Huggies MomInspired Grant Program awards grants and business resources to moms to further the development of original product ideas and startup businesses.

The judging panel will review all submissions under consideration and evaluate them thoroughly based on their qualities and inherent worth. All decisions on grant applications are final and are solely within the discretion of Kimberly-Clark Corporation and its agents.

The evaluation process takes roughly 6 weeks per submission period. Those applicants accepted into round two will be invited to a brief phone interview with our judging panel. Once a decision has been rendered, winners and non-winners alike will be notified either by phone or email.

Applicants who are awarded grants will be asked to share their progress on a quarterly basis and are requested to reach out to Huggies® first if they consider selling their business. The final decision on who the applicant sells their business to, after this first discussion with Huggies®, is left to the discretion of the grant recipient.

The DOT Disadvantaged Business Enterprise (DBE) program is intended to ensure nondiscrimination in the award and administration of DOT-assisted contracts in the Department's highway, transit, airport, and highway safety financial assistance programs.

The goals of the program are to remedy past and current discrimination against disadvantaged business enterprises, ensure a "level playing field" in which DBEs can compete fairly for DOT-assisted contracts, improve the flexibility and efficiency of the DBE program, and reduce burdens on small businesses. Sometimes, the agency offers grant funding to minority-firms to provide training on how to better compete for contracts.

In general, to be eligible for the DBE program, persons must own 51% or more of a "small business," establish that they are disadvantaged within the meaning of DOT regulations, and prove they control their business.

Firms meeting the eligibility standards must contact the specific state or local transportation entity for which they wish to participate in contracts. In addition to requesting documentary evidence substantiating a firm's size, owner's PNW, independence, and an individual's ownership and control, recipients are required to perform an on-site visit to the firm's offices and job sites.

The Small Business Innovation Research (SBIR) program provides grant funding to small businesses to engage in biomedical or behavioral research/ development that leads to a potential for commercialization. Innovative technologies to improve health. Create life saving technologies and stimulate economic growth.

The SBIR Program includes the following objectives: using small businesses to stimulate technological innovation, strengthening the role of small business in meeting Federal R/R&D needs, increasing private sector commercialization of innovations developed through Federal SBIR R&D, increasing small business participation in Federal R/R&D, and fostering and encouraging participation by socially and economically disadvantaged small business concerns and women-owned business concerns in the SBIR program.

The STTR (Small Business Technology Transfer) and SBIR programs are similar in that both programs seek to increase the participation of small businesses in Federal R&D and to increase private sector commercialization of technology developed through Federal R&D. The unique feature of the STTR program is the requirement for the small business concern applicant organization to formally collaborate with a research institution in Phase I and Phase II.

The program is managed by the National Institutes of Health (NIH), and they welcome SBIR and STTR applications from small businesses in any biomedical or behavioral research area that falls within their mission, which is to improve human health.

The federal government does NOT provide grants for starting and expanding a business.

Government grants are funded by your tax dollars and therefore require very stringent compliance and reporting measures to ensure the money is well spent. As you can imagine, grants are not given away indiscriminately.

Grants from the federal government are only available to non-commercial organizations, such as non-profits and educational institutions in areas such as, medicine, education, scientific research and technology development. The federal government also provides grants to state and local governments to assist them with economic development.

Some business grants are available through state and local programs, non-profit organizations and other groups. For example, some states provide grants for expanding child care centers; creating energy efficient technology; and developing marketing campaigns for tourism. These grants are not necessarily free money, and usually require the recipient to match funds or combine the grant with other forms of financing such as a loan. The amount of the grant money available varies with each business and each grantor.

If you are not one of these specialized businesses, both federal and state government agencies provide financial assistance programs that helps small business owners obtain low-interest loans and venture capital financing from commercial lenders.

<u>INCENTIVES</u>

The State of Nevada offers a variety of incentives to help qualifying companies make the decision to do business in the state, including sales tax abatements on capital equipment purchases, sales and use tax deferral on capital equipment purchases, abatements on personal and modified business taxes, real property tax abatements for recycling, assistance with the cost of intellectual property development, and employee training grants.

FOREIGN TRADE ZONES

FOREIGN TRADE ZONE NO. 126- NORTHERN NEVADA & FOREIGN TRADE ZONE NO. 89 IN LAS VEGAS

If your business imports products, parts or raw materials from outside of the country, then it may save you time and money to get into the zone. A "Foreign Trade Zone" that is. Nevada has two designated Foreign Trade Zones (FTZ): #89 in southern Nevada and #126 in the north.

What is a Foreign Trade Zone?

A FTZ is a designated location within the state that is treated as if it is outside U.S. boarders for customs purposes. The zone can be used for storage, distribution, and production activities. When items are imported into the FTZ, no customs duties are required to be paid until the product leaves the location. If the item is re-exported outside of the U.S., no du-ty has to be paid and it is entirely exempt from tax, or use fees. Once the items are shipped outside of the designated trade zone to be sold within the country, duty and all associated fees are paid at that time.

The Foreign Trade Zones in Nevada also have the more flexible designation as an Alternative Site Framework which allows items to be imported anywhere within the broad designation of the zone, for example, anywhere in Clark County rather than just specified areas near port of entry. In fact, it is so flexible that a business can qualify their location as a FTZ and there is no need to move to take advantage of the bene-fits. Companies can have multiple locations within the zone and products can be moved between these locations without paying duties.

What are the benefits of utilizing a FTZ?

Improved cash flow: A FTZ gives a business the option to defer duty payment which helps manage cash flow by not paying the duty until the item is sold or exported outside of the zone for consumption within the country.

Eliminate duty on scrap: After an item enters the FTZ it may be assembled, manipulated, repaired, cleaned, manufactured, salvaged, destroyed, processed, sampled, displayed, mixed, repackaged, tested and stored indefinitely without paying duties. No duty is paid on waste materials or materials that are "used up" in the manufacturing process.

Potential savings on finished products: Another benefit of the FTZ may come from transforming raw materials or manufacturing components into a finished product. In many cases, finished products have lower duty rates than the individual components. For example, if a component part, such as a radio, is imported into your FTZ and incorporated into a finished product, say a vehicle, the finished product may have a lower rate or be duty-free. Your company may even have the option of paying the lower of the component or the finished product duty rate.

Improved logistics and reduced paperwork: Weekly reporting can cut paperwork down to at most, 52 reports per year rather than potential daily re-porting. There can be further cost and time saving measures available with careful logistics management, improving supply chain efficiencies, or through hiring a logistics import, export, or transportation company.

Faster customs clearance: Some companies experience accelerated clearance of customs, lower inspection frequency, and 24/7 delivery and withdraw resulting in quicker just-in-time logistics.

Production in your backyard: Keeping production close to home improves oversight of processing, decreases loss due to theft, and better control over intellectual property. The current trend is considered "on-shoring" as companies are finding they do not need to move production overseas to be competitive and have found economic advantages to moving back within the United States.

Is it right for your business?

According to the Las Vegas Global Economic Alliance (LVGEA), any company that imports raw materials or finished products—regardless of size—can benefit. Even a small business may be able to utilize a FTZ through a 3rd party logistics company. For example, after a clothing distributor in Nevada started utilizing the FTZ, they experienced significant financial savings and improved logistics. The direct benefits to their bottom line led to growth in their business.

How do I get started?

First, you need to contact the grantee organization designated by the federal government that manages the FTZ. In Clark County, you will need to contact LVGEA; in north-ern Nevada, EDAWN. They will walk you through the process (at no cost to you) and help you conduct a cost/benefit analysis to make an initial evaluation of the potential bene-fits. The process of evaluation, application and approval will typically take between 3 to 6 months. After you begin utilizing the FTZ, the cost to your company will vary depending on size and how you plan to utilize the program.

NEVADA STATE PROGRAMS

ORGANIZATION NAME: Governor's Office of Economic Development (GOED)

PROGRAMS: State Small Business Credit Initiative

Nevada State Collateral Support Program

The intent of the Program is to supply cash collateral accounts to Nevada financial institutions to enhance the collateral coverage of borrowers. These accounts will cover all or a portion of a calculated collateral shortfall as determined by the lending institution. Borrowers with a collateral shortfall will apply for coverage through a financial institution that will then coordinate directly with Nevada Economic Development Commission (NCED). Companies using this program will be otherwise strong with typically good historical cash flow coverage and typically strong indicators of future business and or sales activity. They will also tend to have strong management teams in place, which the lender believes will perform well going forwards. Potential borrowers must complete a loan application with a Nevada financial institution.

ABOUT THE PROGRAM: Access to capital funding is available through two new programs for small businesses in Nevada so they can grow and diversify. Nevada has been awarded \$13.8 million in federal capital funding to support our state's Nevada Collateral Support Program and Nevada Microenterprise Initiative programs.

The State of Nevada anticipates that all programs supported by SSBCI dollars will be providing much needed capital to our micro and small business community. With these dollars, we anticipate new jobs will be created and existing jobs will be retained. Nevada will leverage the SSBCI dollars in conjunction to the programs created in the 2011 Nevada Legislative session in both AB 449 and SB 75. It is anticipated that between these two programs there will be generated 1,035 new private sector jobs in Nevada between the initial periods through December 2016. NON-TRADITIONAL FINANCING

ANGEL INVESTORS

An angel investor or angel is an affluent individual or group of investors who are willing to invest in a company at its earlier stages in exchange for an ownership stake, often in the form of preferred stock or convertible debt. Whether you decide to seek an angel investment depends on your personal management style and the long-term plans for your company. Unlike a bank loan or other types of debt financing, equity capital gives someone else an ownership interest in your company.

Each group or individual will have their own set of criteria for which businesses they choose to invest in. Most to do not stray far from this standard.

ORGANIZATION NAME: Reno Angels

CAPITAL AVAILABLE: \$100,000 to \$500,000 equity capital

STAGE: Early to mid-stage entrepreneurial companies.

LOCATION: Primary focus is on companies based in Northern Nevada. Reno Angels also work closely with other angel groups throughout the country as well as regional and national venture firms but give preference to companies located in the Greater Reno-Tahoe area.

CAN BE USED FOR: Generally do not invest in:

- Companies offering non-convertible debt instruments
- Retail Operations
- Motion picture or television projects
- The buyout of existing businesses

ABOUT THE PROGRAM: Mentor and coach entrepreneurs in whom they invest, serve on their boards, provide contacts and assist with team building, strategic and fundraising. Applications are accepted through online submission at their website only. There is a \$100 non-refundable application fee. Application fees will NOT be refunded for companies that apply and are then declined because they fall into the non-investment categories listed above.

VENTURE CAPITAL

Venture Capitalists (VC) focus on companies developing significant innovations - be it a new piece of software, a life-saving cancer drug, or a new model for consumer sales. Unless the company is poised for significant growth, a VC won't invest. Making investments at the earliest stages of a company's development, often before a product or service is more than just an idea, involves significant entrepreneurial risk, which severely limits capital sources for such companies. Yet, Venture Capitalists assume this risk alongside the company founders by providing capital in exchange for an equity stake in the company.

ORGANIZATION NAME: Access Venture Partners
CAPITAL AVAILABLE: \$250,000 and \$2,000,000

STAGE: Early Stage technology companies

LOCATION: North America

CAN BE USED FOR: Access Venture Partners typically makes its initial investment as part of the first institutional round and often continues in subsequent rounds. Their current investment activity is focused on the following areas of interest:

Efficiency Technologies

- Digital Media and Consumer Internet
- Data Security and Storage
- Cloud Computing and Infrastructure

They also keep an open mind and consider unique opportunities. In general, they look for high gross-margin businesses in large markets, not narrow niches.

ABOUT THE PROGRAM: They actively participate in building the management and distribution infrastructure required to aggressively grow new businesses. As investors, they wear many hats in supporting their portfolio companies, helping to design sales and marketing strategies, define product road maps, recruit talent and raise capital. They do not sign NDAs. Applicants must submit an executive summary and business plan via Access VP's website.

CROWDFUNDING

Crowdfunding describes the collective effort of individuals who network and pool their money, usually via the Internet, to support efforts initiated by other people or organizations. Crowdfunding has its origins in the concept of crowdsourcing, which is the broader concept of an individual reaching a goal by receiving and leveraging small contributions from many parties. Crowdfunding is the application of this concept to the collection of funds through small contributions from many parties in order to finance a particular project or venture.

There are more than 1,000 crowdfunding sites on various platforms currently available. Although sites like Kickstarter and RocketHub are quite popular, they are primarily geared toward creative projects and have not been listed here. The majority of sites listed here pertain mostly to businesses.

NAME: Early Shares

PLATFORM: Equity/Rewards-Based/Combination

FUNDING MODEL: All or Nothing

USES: Businesses seeking to raise money on EarlyShares must meet eligibility requirements (see website for details) real estate, entertainment, general business and technology.

ABOUT: EarlyShares currently offers the following types of fundraising options:

- Direct Investments: Equity investment Offerings with the transactions effected by EarlyShares' brokerdealer partner National Securities Corporation (member FINRA/SIPC).
- EarlyFunds: Equity investment Offerings where investors invest into a high-end, single purpose LLC, managed by EarlyShares, that directly funds a company.
- Rewards Campaigns: Non-equity Crowdfunding campaigns. These are a limited number of these campaigns. If you would like to be one of those partners, please contact rewards@earlyshares.com.
- Combination Campaigns: Equity investment Offerings (Direct Investments or EarlyFunds) with additional Reward components. Since Combination Campaigns are Equity Offerings, only Accredited Investors are eligible to participate. All other guidelines for Equity Offerings also apply.

By law, there is no limit to the amount you can raise for a Direct Investment or EarlyFund Offering. EarlyShares typically sees businesses applying for funding amounts between \$100,000 and \$2 Million. The timeframe is heavily dependent on an issuer's ability to respond to requests and return necessary information in a timely manner. The overall process can take anywhere from 2 to 5 months.

COST/FEES: Free to sign up for an account and submit profile. There is no fee structure yet since EarlyShares is waiting for SEC to finish up the regulations for equity-based crowdfunding. Companies or organizations that host Rewards Campaigns pay EarlyShares a percentage (between 5-8%) of the total amount raised.

NAME: Pave

PLATFORM: Donation / Rewards

FUNDING MODEL: Keep it all (minus fees)

USES: Funds raised can be used for one of three things:

To pay off debt

To invest in education

To pursue and opportunity

ABOUT: Pave is a unique platform that allows people to bet on U.S. citizens between the ages of 18 and 40 that show potential for a great career. Payments are linked to the income of the individual, becoming an incentive for both sides. Under the terms of Pave participation agreement, a prospect accepts a one-time payment from backers in exchange for committing to share a small, affordable percentage of income over a period of time (e.g., 5 to 10 years).

Since backer and prospect interests are aligned, some backers may also provide career guidance, mentorship and networking connections to promote the success of their prospects. As a prospect, you may share **no more than 10%** of your income for 10 years. Prospects are expected to raise **at least \$2,000** from backers to be funded, and current prospects have raised **\$20,000 on average**. The maximum amount you can raise depends on your specific situation – how much you're expected to earn and the percentage of income you're willing to share. All campaigns will be on Pave for 60 days, unless the minimum is hit before the 60 days are up.

COST/FEES: If a campaign is successfully funded, Pave collects a 3% origination fee on the total amount raised from the prospects. They also charge a 1.5% servicing fee on each payment made to backers.

MICROLENDING

Micro loans are small business loans typically under \$50,000. Micro loans are generally used for start-up cash but are sometimes given to newly launched small businesses for working capital. Micro loans can be used for many purposes including the purchase of equipment, inventory, machinery, fixtures, furniture, supplies, and even to purchase another business. Each lender will have their own requirements for repayment of a micro loan. Interest rates and collateral requirements vary considerably between lenders but almost all require a personal guarantee by at least one of the business' owners.

ORGANIZATION NAME: SBA microloans

PRODUCT AVAILABLE: loans up to \$50,000

RATES/TERMS/FEES: The maximum repayment term allowed for an SBA microloan is six years. Interest rates vary depending on the intermediary lender and costs to the intermediary from the U.S. Treasury. Generally, these rates will be between 8 and 13 percent.

LOCATION: Nation-wide

CAN BE USED FOR: Small businesses and certain not-for-profit childcare centers start up and expansion.

- Working capital
- Inventory or supplies
- Furniture or fixtures
- Machinery or equipment

Proceeds from an SBA microloan cannot be used to pay existing debts or to purchase real estate.

ABOUT THE PROGRAM: The U.S. Small Business Administration (SBA) provides funds to specially designated intermediary lenders, which are nonprofit community-based organizations with experience in lending as well as management and technical assistance. These intermediaries administer the Microloan program for eligible borrowers. Each intermediary lender has its own lending and credit requirements. Generally, intermediaries require some type of collateral as well as the personal guarantee of the business owner. If you apply for SBA microloan financing, you may be required to fulfill training or planning requirements before your loan application is considered. This business training is designed to help you launch or expand your business. To apply for a microloan, you must work with an SBA approved intermediary in your area. Approved intermediaries make all credit decision on SBA microloans.

ORGANIZATION NAME: Western Nevada Development District (WNDD)

PRODUCTs AVAILABLE: Business Microloan Program. Loan amounts range from \$500.00 to a maximum of \$50,000.00

RATES/TERMS/FEES: Flexible terms from (1) year to (10) years

LOCATION: New or existing small business owners interested in opening, expanding, or retaining a business in the rural Nevada communities with 50,000 or less population.

CAN BE USED FOR: working capital, purchase of equipment, purchase of inventory, construction or remediation

ABOUT THE PROGRAM: Businesses must be in rural Nevada as defined by CDBG. Because a private business is receiving public funds, CDBG regulations require the creation of jobs by the business to show public benefit. Under the HUD federal regulations one full-time equivalent (FTE) job must be created for each \$35,000 in CDBG assistance provided. Part-time staff may be combined to make up one FTE. One FTE consists of 2,080 staff hours per year.

As with the national objective requirement outlined above, the CDBG public benefit requirement will be enforced via a loan agreement that the borrower executes at loan closing. The loan agreement requires that the business provide payroll documentation to Western Nevada Development District showing job creation sufficient to meet the \$35,000 per FTE requirement. CDBG loans are meant to create long term employment opportunities but ongoing long term monitoring is not required.

Each person who is a new hire, or is in a position retained because of CDBG loan funds, must complete a Self-Certification Family Income Verification form. This form must be completed and provided to Western Nevada Development District within 6 months of receiving the loan. This information assists with the demographic and income information which is included in the annual report submitted to HUD. In order to be eligible for CDBG funding, each applicant must qualify as meeting one of the following national objectives of the CDBG program:

Benefiting low- and moderate-income persons

Meeting an urgent need

· Prevention or elimination of slum or blight

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS (CDFI)

A certified Community Development Financial Institution (CDFI) is a specialized financial institution that works in market niches that are underserved by traditional financial institutions. CDFIs provide a unique range of financial products and services in economically distressed target markets such as: mortgage financing for low-income and first-time homebuyers and not-for-profit developers; flexible underwriting and risk capital for needed community facilities; technical assistance; commercial loans and investments to small start-up or expanding businesses in low-income areas. CDFIs include regulated institutions such as community development banks and credit unions and non-regulated institutions such as venture capital funds.

ORGANIZATION NAME: <u>Idaho Nevada CDFI</u>
PRODUCT AVAILABLE: \$15,000 -\$500,000

RATES/TERMS/FEES: All CDFI interest rate pricing is based on risk. CDFI loans typically have fixed-interest rates. Fully amortized, usually no more than ten years with average term being seven years. We will go with longer terms where appropriate and when collateralized with real estate.

LOCATION: Primary market is Idaho and Nevada. However, on a case-by-case basis projects are considered in other western states having distinct community development impact.

CAN BE USED FOR: Variety of businesses, everything from restaurants to furniture manufacturing.

ABOUT THE PROGRAM: Unlike conventional lenders, they don't have a fixed product list. The product description below is a general guideline on the type of credit that can be provided, but is by no means exhaustive. If a loan application is strong and has significant community impacts they are very flexible in developing a credit that will work.

Small business borrower customer profile:

- Must be located in a CDFI eligible area.
- While they have successfully made a number of start-up loans, they most frequently seek existing businesses that are looking at expanding or consolidating.
- The businesses will have accumulated some assets and will have a banking relationship established.
- They have some level of sophistication and usually are high wage payers.
- They will have good credit, but their deal will not be fully fundable by a bank.
- Real estate is preferred as collateral and subordinate debt financing is not provided.
- Frequently small business lending is done in conjunction with one of their investor banks as a loan participation.

PEER TO PEER LENDING

Peer-to-peer lending is the practice of lending money to unrelated individuals, or "peers," without going through a traditional financial intermediary such as a bank or other traditional financial institution. This lending takes place online on peer-to-peer lending companies' websites using various different lending platforms and credit checking tools. Review each company's rates and fees sections. These are generally short-term loans that also have origination fees upon funding and may charge a fee for payments made by check. Rates and terms can always change so be sure to check with the company at the time of your loan request.

ORGANIZATION NAME: Kiva Zip

LOANS AVAILABLE: The maximum amount that Kiva Zip borrowers in the United States and Kenya can borrow can increase as borrowers repay. In the United States, Kiva Zip borrower amounts are as follows:

 Maximum Loan Amount
 Loan Term

 \$25.00 to \$5,000.00
 6 - 24 months

 \$5,025.00 to \$10,000.00
 12 - 36 months

RATES: 0% Interest. For loans of \$2,500 and under, borrowers are required to invite between 5 and 15 lenders from within their network. For loans of \$2,525 and above borrowers are required to invite between 10 and 30 lenders from within their network.

LOCATION: United States and Kenya

ABOUT THE PROGRAM: Borrowers apply for Kiva Zip loans by filling out an online application form. Every borrower must be endorsed by a trustee. Trustees never handle the money, but their public reputation is tied to the repayment record of the borrowers they endorse. Lenders visit the Kiva Zip website and choose whom they want to offer a loan. Once a loan is fully funded, Kiva Zip sends the loan amount directly to the borrower. Over the course of the loan term, the borrower promises to pay their lenders back in regular installments. As the lenders get their money back, they can re-lend the money or withdraw it from Kiva Zip.

ORGANIZATION NAME: DB Squared Inc.

ABOUT THE PROGRAM: Invoice Factoring – Your business sells products or services to another business or entity. Each order fulfillment generates an accounts receivable invoice. Rather than managing the invoice yourself and waiting weeks or even months for your customer to make payment, you decide to sell the invoice to an invoice factor – a company that factors (or buys) the invoice at a discount. You receive immediate access to up to 98% of the full amount of each invoice you sell to DB Squared. The remainder is placed in reserve, pending payment of the invoice by your customer. Once DB Squared receives payment and the amount of the invoice is satisfied, the reserve amount less invoice discount (which usually ranges from 1% – 6% per the proposal we agree upon) is forwarded to you as well.

Merchant Cash Advances (MCA) – Lump sum cash infusions provided to a business that accept debit and credit cards as a form of payment from their customers. Advances from MCAs can help solve cash flow challenges, cover unexpected expenses or provide working capital for a business to grow and even expand. DB Squared may provide a business with a merchant cash advance in an amount equivalent of up to 150% of a typical month's debit and credit card sales. A small percentage of the client's credit and debit card sales is sent directly to us from the card processing company each day until the full amount has been repaid (usually over 6-12 months).

<u>Business Cash Advance-</u> Like business loans, business cash advanced provide working capital in the form of a lump sum cash infusion based on the organization's anticipated sales. These advanced are repaid through small daily (or sometimes weekly) payments from their bank account. While bank loans often take years to repay, a business cash advance is usually repaid within 6-18 months.

ORGANIZATION NAME: Financial Guidance Center

PRODUCT: Individual Development Accounts (IDAs)

- Micro-enterprise IDA: offers a 2:1 match with a maximum participant contribution of \$2,000, receiving a \$4,000 match for a total of \$6,000.
- Homeownership IDA: offers a 3:1 match with a maximum participant contribution of \$5,000 receiving a \$15,000 match for a total of \$20,000.
- Education IDA offers a 4:1 match with a maximum participant contribution of \$600 receiving a \$2,400 match for a total of \$3,000.

LOCATION: Throughout Nevada

ABOUT THE PROGRAM: IDAs are special savings accounts that match the deposits of low and moderateincome people. For every dollar saved in an IDA, savers receive a corresponding match, which serves as both a reward and an incentive to further the saving habit. Savers agree to complete financial education classes and use their savings for an asset-building purpose – typically for post-secondary education or job training, home purchase, or to capitalize a small business. In addition to earning match dollars, savers learn about budgeting, saving and receive additional training before purchasing an asset.

IDAs are offered through partnerships between financial institutions (such as banks and credit unions) and local nonprofit organizations, or program sponsors. The IDA program sponsor recruits participants for the program, provides financial education classes, and provides additional training based on the participant's asset choice – homeownership education and counseling, small business training, or guidance on choosing and enrolling in post-secondary education or job training.

After signing up for the IDA program, each participant opens a savings account with the partnering bank or credit union. The financial institution handles all transactions to and from the IDA, just as they do with other types of accounts. IDA accountholders receive regular statements detailing how much they have saved and the amount of match they have earned.

An IDA program can be as short as six months or as long as several years from beginning to end. IDA participants are allowed to withdraw money as soon as they have reached their savings goal, but they must first get approval from their IDA program sponsor. Some participants choose to use their funds toward one large savings goal, such as buying a home, while others make withdrawals for a number of smaller, related goals, such as a computer, textbooks, and college tuition. There are certain eligibility requirements for this program. Please call the organization for more information.

ORGANZATION NAME: The Interface Financial Group (IFG)

PRODUCT: Invoice Discounting

LOCATION: IFC serves clients in the United States, Canada, Australia, New Zealand, the Republic of Ireland, Singapore, the United Kingdom and Mexico. They have now established a location in Nevada.

ABOUT THE PROGRAM: Invoice discounting allows the business owner to use their B2B accounts receivable as the basis for obtaining working capital and accelerating cash flow. The accounts receivable (invoices) are sold at a discount and the owner receives cash immediately. IFG will buy invoices for any value. Clients choose the invoices they wish to sell. The cost is based on the number of days the invoice is outstanding; there are no long-term commitments, no extra fees or charges; no restrictions on use of funds. Invoice discounting is a simple buy/sell, off balance sheet transaction.

Funding can be provided for virtually any business selling a product or service on regular credit terms to other businesses and all funding requests are considered. Typically, IFG works with businesses that have been in operation for at least 3 months, with annual (actual or projected) sales of \$250,000 or above. The invoice discounting relationship between IFG and a business can be set up within days and once established, funding can happen within 48 hours. In an invoice discounting transaction the credit worthiness of the business' customer is often more important than its own credit rating, because the customer is the one who is obligated to pay the invoice to the invoice discounter. IFG has been providing short-term working capital funding in the form of Invoice Discounting since 1972.

ORGANIZATION NAME: BUSINESS FINANCE CORPORATION (BFC)

ABOUT THE PROGRAM: Invoice Factoring – Also known as accounts receivable financing, is a financial transaction and a type of debtor finance in which a business sells its accounts receivable (i.e., invoices) to a third party (called a factor) at a discount. Factoring receivables is a debt-free way to get paid sooner by unlocking the cash tied up in unpaid invoices. Since it's NOT a loan, there is nothing to repay. Once you sell your invoice to **BFC** you receive immediate access of up to 80% of the full amount of each invoice. The remainder is placed in reserve. Once BFC receives payment from your client, we release the reserve minus a modest discount of 3-4%.

TRADITIONAL FINANCING

BANKS

Small businesses and franchises of any development stage can apply for conventional loans. However, since the federal government does not guarantee this type of loan, banks prefer to lend to companies that demonstrate a strong ability to service the debt and have significant collateral to cover the loan if the company ultimately cannot pay back the loan. In addition, business owners seeking these loans are usually required to have exceptional FICO scores, a reasonable debt to worth ratio and provide a solid business plan and projections.

See Appendix C for Nevada Banks List (Pages 52 – 60)

CREDIT UNIONS

Credit unions are member-owned non-profit institutions. They frequently offer their members lower interest loans than they might get at a bank. Some provide business loans but not all. Personal or unsecured loans, home equity loans and equipment loans not specifically geared toward businesses might be of interest to borrowers for business purposes.

Several Nevada credit unions are listed in Appendix D. This is by no means an exhaustive list and there may be several branches/locations for each credit union but only the main branch is shown.

See Appendix D for Nevada Credit Unions List Page 61)

SMALL BUSINESS ADMINISTRATION (SBA) LOAN PROGRAMS

SBA loan programs are for small businesses unable to secure financing on reasonable terms through normal lending channels. The programs operate through private-sector lenders that provide loans guaranteed by the SBA. The Agency has no funds for direct lending or grants. SBA guarantees partial repayment to the lending institution of money it would otherwise lose if a business were to fail. Most private lenders are familiar with SBA loan programs so interested applicants should contact their local lender for further information and assistance in the SBA loan application process.

The SBA sets guidelines for the loans that include lower down payments and longer repayment terms than conventional loans. This allows a business to keep its cash flow for operational expenses and spend less on debt repayment. There are fixed and variable interest rate options with repayment terms up to 25 years, depending on the loan.

Banks can vary in loan policy so if your application is rejected at one bank, you might receive approval at another. Loans are made to businesses, not individuals and key factors of eligibility are based upon what the business does to receive its income, the character of its ownership and where the business operates.

There is a loan to fit most business needs in almost any for-profit industry. The 7(a) Loan Program provides loans to eligible borrowers to start, purchase or expand a small business. This is the most basic and commonly used of SBA's loan programs. See <u>Appendix B for a list of lenders offering SBA guaranteed loans</u>.

Another option is the Microloan Program that assists startups and newly established or growing small businesses with loans up to \$50,000.

The 504 Loan Program can assist small businesses with obtaining fixed assets for expansion or modernization through long-term, fixed financing. These loans are made through Certified Development Companies (CDCs), which are certified non-profit corporations regulated by the SBA. See Appendix E for a list of Nevada CDCs

(Page 62).

The Nevada District SBA Office has provided a quick reference guide to SBA Loan Guaranty Programs (see <u>Appendix F</u>, pages 63-64).

USDA RURAL DEVELOPMENT BUSINESS PROGRAMS

Promoting a dynamic business environment in rural America is the goal of Rural Development, Business and Cooperative Programs (BCP), Business Programs (BP). BP works in partnership with the private sector and community-based organizations to provide financial assistance and business planning. BP helps fund projects that create or preserve quality jobs and/or promote a clean rural environment. BP often leverages financial resources with those of other public and private credit source lenders to meet business and credit needs in under-served areas. Recipients of these programs may include individuals, corporations, partnerships, cooperatives, public bodies, nonprofit corporations, Indian tribes, and private companies. Rural Development field staff administer all USDA Rural Development mission area programs, including Business Programs. The

Nevada USDA has provided a quick reference guide to some of the Business Programs. (Please see Appendix G, Page 65)

Following are direct links to a few of the Business Programs:

Loans

Business and Industry (B&I) Guaranteed Loans

The purpose of the B & I Guaranteed Loan Program is to improve, develop, or finance business, industry, and employment and improve the economic and environmental climate in rural communities.

Intermediary Relending Program (IRP)

The purpose of the IRP program is to alleviate poverty and increase economic activity and employment in rural communities. Under the IRP program, loans are provided to local organizations (intermediaries) for the establishment of revolving loan funds. These revolving loan funds are used to assist with financing business and economic development activity to create or retain jobs in disadvantaged and remote communities.

Rural Economic Development Loan and Grant (REDLG)

The REDLG program provides funding to rural projects through local utility organizations. Under the REDLG loan program, USDA provides zero interest loans to local utilities, which they, in turn, pass through to local businesses (ultimate recipients) for projects that will create and retain employment in rural areas.

Biorefinery Assistance Program Biorefinery Assistance Loan Guarantees (Section 9003)

The purpose of this section is to assist in the development of new and emerging technologies for the development of advanced biofuels.

Grants

Rural Business Enterprise Grant Program (RBEG)

The RBEG program provides grants for rural projects that help fund distance learning networks and employment related adult education programs as well as projects that finance and facilitate development of small and emerging rural businesses.
