Supplemental Request for Information

Reference NRS 231A as amended by Nevada Senate Bill 240 of the 82nd Nevada Legislature (SB 240) and NAC 231A as amended by LCB File No. R036-23.

4. Please specify and clarify the financial structure the CDE/entity intends to use for Nevada tax credit investments:

- A/B Leveraged “forgivable” structure with no principal repayment
- Revolving loan structure*
- Both: If both, please provide an estimated amount or percentage for each structure.
- Other: Please provide a description.

**Per NRS Chapter 231A, a revolving loan structure requires 150% reinvestment in Nevada qualified businesses. By stating you plan to use a revolving loan structure, you are stating you understand the 150% reinvestment requirement. Question 4 is intended to help the state better understand the structures applicants are considering or planning to follow. The answer does not commit your CDE/entity to investing with said structure, or to a specific structure alone.*

5. If your CDE/entity receives an allocation and is given the option, would it prefer or anticipate funding the qualified equity investment or impact qualified equity investment, as applicable, before the end of calendar year 2024 or in early 2025? Please note: any expression of preference is for informational purposes only and the solicitation of such information by the Department does not represent, and is not intended to be, an actual or prospective commitment of any kind as to the Department’s granting of allocation to an applicant, its certification of a qualified or impact qualified equity investment, or the timing of an equity investment’s funding.
